FOLD BACK

1. Detach cage. Press through and discard all black strips between bars.
2. Now join floor of cage by locking tabs A and A together. Pull out sides to square off cage.
3. Detach lions, bend them slightly in the middle so that tabs at bottom may be inserted through slots in floor of cage.
4. Fold and lock tabs B and B together at top of cage.
5. Crease end flap on back of cage where indicated and close back of cage by tucking in position.
